THE TRUE MISSION

For over 75 years TRUE has remained steadfast in our mission "To provide a wide range of American-made commercial refrigeration products that exceed industry quality standards at competitive prices."

Throughout the years, TRUE has maintained a business strategy focused on innovation and capital investment in updated facilities and state-of-the-art technologies. TRUE purchases only the best materials based on the application for our products without compromise for price. As a result, our products are known for their outstanding longevity, dependability and value.

As a privately owned business, TRUE has the unique ability to adjust swiftly and decisively to market trends, employ new strategies for meeting our customers' needs, and address the increasing demands for social responsibility in the manufacturing process. TRUE has expounded upon an expansive program, implemented in the mid 1990s, to reduce our carbon footprint and minimize the environmental impact of our products and operations.

At TRUE, we are not only interested in a leadership role in the commercial refrigeration industry, but also as a leader and model in efficient, responsible manufacturing worldwide.

WHAT IS HYDROCARBON REFRIGERANT?

Hydrocarbon (HC) refrigerants are natural, nontoxic refrigerants that have no ozone depleting properties and low global warming potential. Hydrocarbons are one of the most climate-friendly and cost-effective refrigerants to cool and freeze.

R290 (HC) refrigerant is highly refined propane that is a safe, environmentally friendly replacement for the hydrofluorocarbon (HFC) refrigerants R134a in refrigerator applications and R404a in freezer applications.

Why is Hydrocarbon Refrigerant Better?

- Current HFC Refrigerants (R134a and R404a) have extremely high Global Warming Potential (GWP) that is harmful to the environment. GWP is the relative measure of how much heat a greenhouse gas traps in the atmosphere. The lower the GWP the better a substance is for the environment. By comparison, R290 Hydrocarbon has a very minimal GWP.
- R290's thermodynamic properties are superior to both R134a and R404a. R290's heat capacitance is approximately 90% greater than R134a and 140% greater than R404a with lower viscosity. This means that the R290 can absorb more heat, faster, resulting in quicker temperature recovery and lower energy consumption.

The World is Changing

With growing concerns about climate change and the atmosphere taking on more and more hazardous emissions, industries are looking to alternative refrigerants as part of the solution. Hydrocarbon refrigerant is the next step towards better refrigeration and environmental responsibility.

Market Demand is Changing

- Over 2 billion HC refrigerators and freezers are used in homes worldwide.
- 20+ years of HC adoption in Europe with over 4 million commercial units in use.
- More and more companies are choosing HC in the U.S. and around the world as they look to meet corporate sustainability objectives.

Regulations are Changing

- In 2011 the EPA approved R290 refrigerants for use in commercial applications in the United States.
- The UL 471 and ANSI/AHRAE 15-2013/34-2013 have established standards for the design and use of R290 self-contained refrigeration units in commercial buildings in the United States.
- The Department of Energy (DOE) issued new mandatory energy usage regulations which began on March 27, 2017. These regulations call for a 40-60% reduction in energy consumption from past DOE regulations. Manufacturers must comply with these regulations in order to legally sell their equipment in the United States.
- California has already banned the use of R134a and R404a in new equipment starting January 2020.

TOP 10 REASONS TO MAKE A TRUE CHOICE

REFRIGERATION SYSTEM

By matching and balancing hydrocarbon refrigeration with the latest refrigeration components, TRUE engineers environmentally friendly refrigeration systems with shorter run times, lower energy consumption and the industry's coldest holding temperatures. TRUE has taken a large step in reducing its carbon footprint with the use of a hydrocarbon refrigerant, R290. R290 is an environmentally friendly refrigerant with a Global Warming Potential (GWP) of 3, compared to refrigerants of the past, R404a and R134a, whose GWP's are 3922 and 1430 respectively.

QUALITY COMPONENTS

TRUE uses quality components to ensure a long life of refrigeration with minimal energy consumption. State of the art components such as energy efficient compressors and electrically commutated motors are used to exceed energy standards without sacrificing the workload. LED lights have been introduced in TRUE units to offer a brilliant display while saving energy and reducing heat within.

HIGH-DENSITY INSULATION

TRUE continues its commitment to sustainability with the use of foamed in place, CFC free, polyurethane, high-density insulation that provides unparalleled strength and rigidity. An increase to an already industry-exceeding insulation factor, with zero ozone depletion potential (ODP) and zero global warming potential (GWP).

OUTSTANDING AFTER-SALE SUPPORT

Along with its 3-year parts & labor warranty, TRUE's exclusive 7-year compressor / condensing unit warranty is the envy of the industry. At no additional cost, our customers enjoy the option of having the entire condensing unit replaced. This consists of a new compressor, condenser, start components, and fan motor, all of which are pre-assembled and shipped from the factory.

DURABLE PVC-COATED SHELVING

TRUE internally manufactures their own heavy-duty shelves utilizing larger diameter steel for strength with 1/2" spacing on top support bars for ease of use. The shelves are then bonded with powdered PVC to prevent chipping and peeling which is prevalent in competitors' standard epoxy coated shelves.

EXCEPTIONAL CUSTOMER SERVICE

Along with our extensive group of regional factory salespeople and international salespeople, TRUE employs our own internal customer service, parts customer service and technical support to be there to help at any time throughout the life of the cabinet. Our dedicated staff is your premier source for educated sales, design and after-sale support.

ENERGY EFFICIENCY

TRUE is committed to eco-friendly manufacturing by meeting and surpassing the energy standards while not sacrificing performance. By using oversized, higher capacity, balanced refrigeration systems, TRUE outperforms industry efficiency expectations.

MADE IN THE USA

TRUE is committed to producing high quality products that are manufactured in the USA. TRUE manufactures each cabinet using an industry leading combination of high quality metals and components designed to optimize cabinet performance.

100% RUN TESTING

In order to verify that all units are manufactured properly and to spec, TRUE run tests every single unit as part of the final quality inspection before releasing the unit into finished goods inventory.

EXTENSIVE AVAILABILITY

In its Missouri-based manufacturing facilities, TRUE builds for inventory to provide for a near 100% fill rate on standard items. This allows for a 2-3 day turn around from the time the purchase order is received and processed.

EQUIPMENT RETURN & CANCELLATION POLICIES

2021 EQUIPMENT RETURN POLICY

Equipment may be returned to True under the following conditions:

1. Received written approval from True prior to return with RMA #. Approved RMA's are valid for 30 days.
2. Returned goods cannot have been used and must be in new condition void of any damage (dents, scratches, etc..).
3. Returned goods must be in the original packaging.
4. All returns are subject to a 25% restocking fee and prepaid returned freight applies.
5. Photos of the unit are required in order to approve an RMA.
6. An inspection by a True representative may be required. If the True representative identifies damage at the time of inspection, these damages may be subject to a deduction on the return credit memo.

2021 CANCELLATION AND DEPOSIT POLICY

Cancellation Fee

- Cancellations made 4 days or after receipt date of the P.O. for a unit or purchase order with one of the following model categories will incur a 50 % cancellation fee of the purchase price:
 - Spec Series models with special door configurations not in the Price List
 - TBR/TDR models with Non-Standard door configuration (Units that are not all solid or all glass doors)
 - GDM models- Stainless Steel Exterior/Stainless Steel Interior. (Cancellation fee is only 25% for Stainless exterior only units.)
- The cancellation fee will be invoiced with payment terms "Net".

Deposit Fee

- A Non-Refundable deposit of 50% will be required at time of order for all custom finishes (powdercoat colors) and custom hardware for our General Foodservice, Specialty Retail, and Premier Bar product lines to place the unit onto the production schedule. The deposit will be applied to the purchase price.

USA Foodservice, Retail & Canada Warranty Statement

THREE-YEAR PARTS & LABOR WARRANTY

TRUE warrants to the original purchaser of every new TRUE refrigerated unit, the cabinet and all parts thereof, to be free from defects in material or workmanship, under normal and proper use and maintenance service as specified by TRUE and upon proper installation and start-up in accordance with the instruction packet supplied with each TRUE unit. TRUE's obligation under this warranty is limited to a period of three (3) years from the date of original installation or 39 months after shipment date from TRUE, whichever occurs first.

Any part covered under this warranty that is determined by TRUE to have been defective within three (3) years of original installation or thirty-nine (39) months after shipment date from manufacturer, whichever occurs first, is limited to the repair or replacement, including labor charges, of defective parts or assemblies. The labor warranty shall include standard straight time labor charges only and reasonable travel time, as determined by TRUE.

Warranty does not cover standard wear parts which include door gaskets, incandescent bulbs or fluorescent bulbs. Warranty also does not cover issues caused by improper installation or lack of basic preventative maintenance, which includes regular cleaning of condenser coils.

ADDITIONAL TWO-YEAR HFC COMPRESSOR WARRANTY AND ADDITIONAL FOUR-YEAR HYDROCARBON COMPRESSOR WARRANTY

In addition to the Three (3) year warranty stated above, TRUE warrants its hermetically and semi-hermetically sealed HFC compressor to be free from defects in both material and workmanship under normal and proper use and maintenance service for a period of two (2) additional years and for Hydrocarbon Units, an additional four (4) years from the date of original installation but not to exceed five (5) years and three (3) months for HFC compressors and not to exceed seven (7) years and three (3) months for HC compressors after shipment from the manufacturer.

Compressors determined by TRUE to have been defective within this extended time period will, at TRUE's option, be either repaired or replaced with a compressor or compressor parts of similar design and capacity.

The two (2) year extended HFC or four (4) year HC extended compressor warranty applies only to hermetically and semi-hermetically sealed parts of the compressor and does not apply to any other parts or components, including, but not limited to: cabinet, paint finish, temperature control, refrigerant, metering device, driers, motor starting equipment, fan assembly or any other electrical component, etcetera.

404A/134A/HYDROCARBON COMPRESSOR WARRANTY

The two (2) year HFC compressor and four (4) year HC compressor warranty detailed above will be voided if the following procedure is not carefully adhered to:

1. This system contains R404A, R134A, or R290 refrigerant and polyol ester lubricant. The polyol ester lubricant has rapid moisture absorbing qualities. If long exposure to the ambient conditions occur, the lubricant must be removed and replaced with new. For oil amounts and specifications please call TRUE technical service department (855-372-1368). Failure to comply with recommended lubricant specification will void the compressor warranty.
2. Drier replacement is very important and must be changed when a system is opened for servicing. An OEM exact replacement should be used. The new drier must also be the same capacity as the drier being replaced.
3. Micron level vacuums must be achieved to ensure low moisture levels in the system. 500 microns or lower must be obtained.

WARRANTY CLAIMS

All claims for labor or parts must be made directly through TRUE. All claims should include: model number of the unit, the serial number of the cabinet, proof of purchase, date of installation, and all pertinent information supporting the existence of the alleged defect.

In case of warranty compressor, a picture of the compressor model tag must be returned to TRUE along with above listed information. For warranty claim information, visit www.truemfg.com/Support/Warranty-Support. Any action for breach of these warranty provisions must be commenced within six (6) months of the defect giving rise to the breach.

True reserves the right to request any failed part covered under warranty to be returned.

WHAT IS NOT COVERED BY THIS WARRANTY

TRUE's sole obligation under this warranty is limited to either repair or replacement of parts, subject to the additional limitations below. This warranty neither assumes nor authorizes any person to assume obligations other than those expressly covered by this warranty.

NO CONSEQUENTIAL DAMAGES. TRUE IS NOT RESPONSIBLE FOR ECONOMIC LOSS; PROFIT LOSS; OR SPECIAL, INDIRECT, OR CONSEQUENTIAL DAMAGES, INCLUDING WITHOUT LIMITATION, LOSSES OR DAMAGES ARISING FROM FOOD OR PRODUCT SPOILAGE CLAIMS WHETHER OR NOT ON ACCOUNT OF REFRIGERATION FAILURE.

WARRANTY IS NOT TRANSFERABLE. This warranty is not assignable and applies only in favor of the original purchaser/user to whom delivered. ANY SUCH ASSIGNMENT OR TRANSFER SHALL VOID THE WARRANTIES HEREIN MADE AND SHALL VOID ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

IMPROPER USAGE. TRUE ASSUMES NO LIABILITY FOR PARTS OR LABOR COVERAGE FOR COMPONENT FAILURE OR OTHER DAMAGES RESULTING FROM IMPROPER USAGE OR INSTALLATION OR FAILURE TO CLEAN AND/OR MAINTAIN PRODUCT AS SET FORTH IN THE WARRANTY PACKET PROVIDED WITH THE UNIT.

RELOCATION OF CABINET FOR REPAIR. True is not responsible for the cost to move a cabinet for any reason from its position of operation on the customer's premises to make a warranty repair.

NON OEM PARTS. Use of non OEM parts without manufacturer's approval will void cabinet warranty.

ALTERATION, NEGLIGENCE, ABUSE, MISUSE, ACCIDENT, DAMAGE DURING TRANSIT OR INSTALLATION, FIRE, FLOOD, ACTS OF GOD. TRUE is not responsible for the repair or replacement of any parts that TRUE determines have been subjected after the date of manufacture to alteration, neglect, abuse, misuse, accident, damage during transit or installation, fire, flood, or act of God.

IMPROPER ELECTRICAL CONNECTIONS. TRUE IS NOT RESPONSIBLE FOR THE REPAIR OR REPLACEMENT OF FAILED OR DAMAGED COMPONENTS RESULTING FROM INCORRECT SUPPLY VOLTAGE, THE USE OF EXTENSION CORDS, LOW VOLTAGE, OR UNSTABLE SUPPLY VOLTAGE.

NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE: THERE ARE NO OTHER WARRANTIES, EXPRESSED, IMPLIED OR STATUTORY, EXCEPT THE THREE (3) YEAR PARTS & LABOR WARRANTY AND THE ADDITIONAL TWO (2) YEAR HFC COMPRESSOR AND THE ADDITIONAL FOUR (4) YEAR HC COMPRESSOR WARRANTY AS DESCRIBED ABOVE. THESE WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, INCLUDING IMPLIED WARRANTY AND MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE HEREOF.

OUTSIDE U.S. AND CANADA: This warranty does not apply to, and TRUE is not responsible for, any warranty claims made on products sold or used outside the United States and Canada. This warranty only applies to units shipped from True's manufacturing facilities after October 1, 2019 for US Foodservice & Retail and after July 1, 2020 for Canada.

ENVIRONMENTAL ATTRIBUTES

Any and all environmental attributes, including environmental offset credit rights, with respect to TRUE® refrigeration units manufactured after September 1, 2015, shall remain the property of True Manufacturing Co., Inc. and are not transferred.

This warranty only applies to units installed after January 1, 2020 for USA Foodservice & Retail and after July 1, 2020 for Canada.
